

## Painting Portfolio 2017 Delpha Hudson

Includes *Metaphysical Positions* shown at Acorn Theatre, Redwing Gallery, Studio Show & Tremeneheere Gallery, 2017

Metaphysics is a branch of philosophy that deals with abstract concepts of being, knowing and identity - feminist metaphysics specifically explores the cultural constructions of gender and selfhood. These small works use figurative and historical gestures to reconfigure and represent possibilities for fluid female identity and selfhood.

These paintings create tactile, performative gestures that invoke bodily engagement and empathy. Different modes of being can be interpreted through movement and gesture and the additional colour blocks and textures aim to evoke different modes of Subjectivity.
